EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Curtiss Austin on March 1, 2006.

The application has been amended as follows:

Claims 1-13 have been cancelled.

--14. (New) A method of making an album from photographic prints comprising the steps of:

providing a plurality of photographic prints;

folding each print inwardly so as to create from each print a sub-assembly having two pages facing each other;

bonding adjacent sub-assemblies back-to-back so as to form an album having a spine, a first page, a last page, and a plurality of intermediate pages;

trimming excess material from top, side and bottom edges of said pages;

removing said first page and said last page;

attaching a binding to said spine of said album.--

--15. (New) The method of claim 14, further comprising the step of stabilizing said sub-assemblies by bonding their pages together in sacrificial areas along their edges.--

--16. (New) The method of claim 14, further comprising the steps of
fixing said album between sacrificial panels before said trimming step;
removing said sacrificial panels after said trimming step.--

2. The following is an examiner's statement of reasons for allowance: The prior art reference to Hattori (5,702,219) discloses a method including the steps of folding pages inwardly, bonding those pages back-to-back, and trimming excess material from the edges of the pages. However, Hattori does not disclose folding photographic prints, and Hattori does not disclose the step of removing a first page and a last page from the completed book.

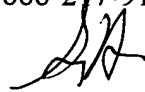

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
